

A comfortably balanced product, SOUL ARMCHAIR displays the perfect harmony of three different materials used in its construction. The wood-veneered plywood crust, which enclaves a metal crescent frame, constructs the main character of the chair. Meticulously stitched and padded backrest, which requires excellent leather craftsmanship, comes in various leather and nubuck alternatives, whereas the seating pad can be fabric or leather. An elegant metal stripe detail mounted on the back foot adds extra gleam to the design. The armchair offers ultimate comfort with its slightly reclined back that is extra padded for waist support.
