AVIGNON
SOFA

W.280 x D.101 x H.70 cm

Designed by **Christophe Pillet**

A token of Enne's high craftsmanship skills, AVIGNON SOFA rests on an inventive wood structure, challenging to produce, made up of forty sheets of wood veneer compressed and compacted, then laboriously turned to obtain the smooth trims, all handcrafted by the qualified local artisans. The solid wood structure wraps up and fastens the back and side elements to create coherence. Exhibiting a classy, welcoming ambiance with its generous proportions, Avignon Sofa is suitable for both residential and hospitality design. The wood structure has plenty of color options, whereas the upholstery comes in leather, nubuck, and fabric.
